2. Furthermore, the Authority guides all life Insurers and Reinsurers as follows:

- i) The Uganda Assured lives mortality table (UA 2015/19) be utilized for pricing new individual life insurance products with effect from 1st August, 2021. This should however not affect premium rates on the already existing individual life policies issued and new sales under existing policies.
- ii) The Uganda Assured lives mortality table (UA 2015/19) be utilized for pricing new annuity products with effect from 1st August, 2021. The mortality study report recommends having a 2 year set-back to the mortality rates when pricing annuity products. This, also, does not affect the annuity rates on the already existing annuity policies issued and new sales under existing annuity policies.
- iii) The Uganda Assured lives mortality table (UA 2015/19) be utilized as a basis for annual actuarial valuation purposes with effect from 31st December, 2021.
- iv) A company is allowed to make suitable adjustments to the mortality table to allow for a company's specific own experience whilst pricing for individual life policies and during annual actuarial valuations. The justification for any adjustments made to the mortality tables should be documented in the pricing and valuation reports.
- v) All life insurers should ensure compliance with Section 65 of the Insurance Act, 2017 (all new insurance products must be approved by the Authority before they can be rolled out to the market).

- vi) In order to aid the process of updating the mortality tables in the future, all life insurers shall annually submit to the Authority, within 90 days after the end of the calendar year, mortality experience data through the prescribed data collection templates.
